

# SEATS<sup>AND</sup>STOOLS

Quality Chairs, Barstools and Replacement Seats and Backs

## Upholstered Replacement Seat Instructions

1. Place your new seat upside down (as shown) on a flat surface. Position your chair frame with the front of the replacement seat. For round replacements center in middle of frame base.
2. Make very small guide holes in bottom of seat with a nail or drill bit before fastening seat with screws to insure easier assembly.
3. Secure the seat to frame using original four (4) screws. Note: A little soap on the screw threads is a big help. (Caution: Do not over tighten screws.)

Your new replacement seat is ready to use.
